

Creating an inclusive curriculum

How are Aboriginal students included in schools?

- Does the curriculum communicate to all students a respect for Aboriginality?
- Does the curriculum communicate to Aboriginal students a pride in their identity and enhance their self-esteem?
- Does the curriculum provide all students with information and knowledge about Aboriginal cultures?
- Is the curriculum content actively inclusive of Aboriginal perspectives?
- Is the content offensive to, or discounting of, Aboriginal people, their experiences and aspirations?
- Do you provide Aboriginal Studies courses for all students?
- Do you provide Cultural Studies courses for Aboriginal students?
- Do you ensure that all learning resources used in the school are accurate about, and respectful of, Aboriginal cultures?
- Have you culled old resources that may reflect a lower level of awareness about Aboriginal cultures and perspectives than is presently acceptable?
