

Birds in our School Ground

Which birds come to our school ground?

My picture I collected from the Internet		Why I think the picture represents my topic	
<p><i>Backyard Bird Watch</i> (ABC Online) have an excellent picture of a Willie Wagtail. However after 2 telephone calls and an email, I haven't yet been able to confirm that I can get permission to use the photo.</p> <p>I have removed the picture.</p>		<p>This is a picture of a Willie Wagtail. We counted 6 Willie Wagtails in our school ground.</p> <p>As I haven't been able to contact the copyright owner I will try to take a digital photo of a Willie Wagtail. I think a short video with the camera will be best because they move so fast.</p>	
Title of picture:	Willie Wagtail
