

HOW TO COMPLETE A CMIS TOPIC SEARCH

- Before you start your **CMIS Topic** search click on the **Topic List** button to download a copy of current CMIS Topics.
- You **MUST** search using one of the CMIS Topics listed in the print-friendly pdf.
- Enter your search term (selected from the pdf document) in the blank **CMIS Topic Keyword** box.
- You may restrict your search by selecting a **Phase of Development**, a **Learning Area**, or an **Outcome**.

Eg: 1. Choosing **Antarctica** as the search topic will give you all resources across all Learning Areas and Phases of Development.

Eg: 2. Choosing **Antarctica** and **Early Childhood** will just give you resources suitable for students in this Phase of Development.

Eg:3: Choosing **Antarctica** and **Science** will just give you resources in the Science Learning Area suitable for students in all Phases of Development.

- **NOTE:** If you want to locate just websites on Antarctica, use an **All Fields search** (not a CMIS Topic search) and put in Antarctica as your search term in the Keyword box and website as a Title search.

A screenshot of the CMIS search interface. The page title is 'All Fields Search using keyword(s)'. There is a search bar with 'Antarctica' entered. Below it, there are two more search fields, one with 'website' and another empty. A red arrow points to the 'All Fields Search' link at the top. A red arrow also points to a drop-down menu for 'Title' which is open, showing options: All, Author, Title, Subject, Publisher, Notes. Below the search fields, there are sections for 'Phase of Development' and 'Learning Areas'. The 'Phase of Development' section has a list of options: Early Childhood, Middle Childhood, Early Adolescence, Late Adolescence/Early Adulthood. The 'Learning Areas' section has a list of options: Arts, English, Health and Physical Education. A red arrow points to the 'Title' option in the drop-down menu.

Use the drop-down menu to select 'Title'
