

HOSPITAL SCHOOL SERVICES

2005

Departments of Education and Training and Health Working Together

TERM 1

CYSTIC FIBROSIS SEMINAR

Date: Friday 25th February 2005
Time: 1.00pm – 3.30pm

Aim: This seminar focuses on broadening knowledge of the condition and the implications for management of both primary and secondary students in the school environment and supporting their education during periods of hospitalisation. You will gain a personal insight through presentations from both a student and parent during an open discussion forum.

Speakers: Respiratory Consultant and Liaison Nurse, Dietician, Physiotherapist, Social Worker, Principal and Cystic Fibrosis Liaison teacher, parent and student.

ACQUIRED BRAIN INJURY SEMINAR

Date: Friday 4th March 2005
Time: 1.00pm – 3.30pm

Professional development for those involved in the education of children with an 'Acquired Brain Injury'

Aim: The session aims to provide a better understanding of: Acquired Brain Injury, educational implications, teaching strategies, support and therapy services, assistive technology and school reintegration. Time is provided to ask questions.

Speakers: Representatives from the PMH Paediatric Rehabilitation Team.

ONCOLOGY SEMINAR

Date: Friday 11th March 2005
Time: 1.00pm – 3.30pm

Professional development for people involved in the education of children with cancer.

Aim: This seminar aims to provide educational and support staff with the opportunity to access the expertise of medical and allied health professionals; to gain medical knowledge on childhood cancers and their treatment; insight into the educational and emotional issues faced by students and their families, and strategies to support them. Time is provided for questions.

Speakers: Presenters include PMH Paediatric Oncology Team members and HSS teaching staff.

EATING DISORDER SEMINAR

Date: Wednesday 16th March 2005
Time: 1.00pm – 3.30pm

Aim: This seminar will provide background information and ideas for the successful school-related management of students with eating disorders. Suggestions on how classroom teachers can best support students' ongoing educational goals will be given.

Speakers: Eating Disorder Team Members - Paediatric Gastroenterologist, Clinician, Eating Disorder Liaison Teacher, HSS staff and student.

EPILEPSY SEMINAR

Date: Friday 1st April 2005
Time: 1.00pm – 3.30pm

Aim: Understanding and supporting the educational needs of students with epilepsy. Background information and strategies to assist staff in the learning environment will be covered. Seminar notes will be supplied.
