

SAMPLE NUMERACY TEST INSTRUCTIONS AND MARKING GUIDE

BEFORE THE ASSESSMENT TASK

Introduce the purpose of the assessment task.

Point out the Numeracy section and remind students that the numbat tells them what to do.

Ensure you carefully follow the instructions in the booklet

Note time allocation. Ensure students have sufficient time to attempt answers to all the questions.

Have a quiet activity for students who finish early.

DURING THE ASSESSMENT TASK

When distributing the assessment materials, ensure each student receives his/her own test booklet.

Work through the practice question with the students.

Help any student who is having difficulty following instructions or reading questions.

Encourage students to follow the directions given by the numbat icon on each page.

It is essential to work through the practice questions with all the students to allow them to become familiar with the type of responses required.
