

## YEAR 7 SAMPLE READING TEST INSTRUCTIONS AND MARKING GUIDE

### READING INSTRUCTIONS

Introduce students to the test booklet and the magazine. Allow students time to look through them both.

Direct them to the instructions on the test paper and explain that:

- they need to read the text before they answer the question;
- sometimes they need to go back to the text to find the correct answer; and
- that the teacher cannot read any of the questions or the text to the students.

Remind students that they need to follow the numbat's instructions.

Allow students time to work through the questions.

Please note: While it is not appropriate to read the text to the students, it is appropriate for the supervising teacher to help children who are 'lost'. For example, you must say to the child – "you need to read this page and then answer these questions".

### READING MARKING GUIDE

Q. No.	Key	Answer	Max. score
1	4	sub-heading.	1
2	3	how to say the word.	1
3	2	students.	1
